PROFILE

Java backend developer pursuing MCA at Berhampur University (CGPA 8.6, top 10%). Designs and ships secure, scalable systems with Spring Boot, REST APIs, and relational databases. Comfortable across the stack with a growing focus on integrating AI/ML into product workflows.

EDUCATION

Berhampur University <i>Master of Computer Applications (MCA) • CGPA: 8.8 • Top 5% of batch</i>	Berhampur, Odisha 2024 – Present
FM Autonomous College, Balasore <i>Graduation, General Studies</i>	Odisha, India 2019 – 2022

TECHNICAL SKILLS

Languages: Java, Python, SQL, Kotlin, JavaScript
Backend: Spring Boot, Spring Data JPA, REST APIs, JDBC, Hibernate, JWT Authentication
Databases: MySQL, PostgreSQL, MongoDB (basics), Redis (basics)
Frontend: HTML, CSS, Tailwind CSS, React (basics)
AI / ML (learning): Python, NumPy, Pandas, Scikit-learn, TensorFlow
Tools & Cloud: Git, GitHub, Maven, IntelliJ IDEA, Postman, Apache POI, Google Cloud (basics), Docker (exploring)
Concepts: OOP, System Design (learning), Backend Architecture, Debugging, Unit Testing
Soft Skill: Problem-solving, Team collaboration, Attention to detail, Time management, Analytical thinking, Communication skills, Cross-functional collaboration, Adaptability

PROJECTS

Vidyapeeth — Multi-Tenant SaaS for Coaching Centers <i>Java, Spring Boot, JWT, PostgreSQL, React, Docker</i> vidyapeeth.in	Jun 2026 – Present
- Architected a multi-tenant SaaS serving multiple coaching institutes from one codebase, using shared-database tenant isolation (Hibernate <code>@Filter</code> + institute-scoped repositories) with branded portals on wildcard subdomains. - Built JWT role-based access (super-admin / institute-admin / student), auto-graded tests across four question types with leaderboards, and Excel bulk import via Apache POI. - Deployed on Render (Dockerized Spring Boot) and Vercel (React) with Supabase PostgreSQL & Storage, Flyway migrations, and a custom domain over SSL.	
Suraag — Offline-First Music Streaming <i>Kotlin, Spring Boot, JWT, AES, ExoPlayer, PostgreSQL</i> suraagmusic.in	Jan – May 2026
- Built a secure, offline-first music streaming app with JWT authentication and AES (with IV) encrypted audio delivery between an Android client and Spring Boot backend. - Engineered seamless playback with ExoPlayer that automatically falls back to cached audio when connectivity drops, eliminating playback interruptions. - Designed REST APIs for streaming, content handling, and metadata; migrating to scalable cloud storage with optimized caching.	
CBCT Allocation System <i>Java, Spring Boot, Spring Data JPA, MySQL, Apache POI</i> GitHub	Oct – Nov 2025
- Built a first-come, first-served seat allocation engine that ingests student preferences from Google Forms / Excel and produces deterministic results. - Implemented persistence with Spring Data JPA over MySQL, automated Excel export of results, and exposed REST APIs for admin tool integration.	

CERTIFICATIONS

- Java Backend Development with Spring Boot, Microservices AI Tools** — GeeksForGeeks (july 2026) | [Link](#)
- Machine Learning with AI** — National Skill Development Corporation (Oct 2025) | [Link](#)
- Fundamentals of Object-Oriented Programming** — NPTEL (May 2025) | [Link](#)
- Java with DSA and System Design 2.0** — PW Skills (2024) | [Link](#)
- 100% Job Ready Java Full Stack Live Course** — Code for Success (2024)

ACHIEVEMENTS

- Ranked among the **top 5% of MCA batch** at Berhampur University (CGPA 8.8).
- Published and maintained multiple production Java projects on GitHub with clean code and clear documentation.
- Completed **NCC B & C Certificates** — demonstrating leadership, discipline, and teamwork.
- Led team in dissertation project, demonstrating cross-functional collaboration.
